13-052 Mayor and Council
NOW THEREFORE BE IT ORDERED, That the City Council hereby amends the Eastside Planning Committee Report entitled “Our Future is Now” and dated October 1, 2011 in the following way:

On page 2 amend the following paragraph as shown:

There are also four places in Augusta that hold “National Historic Landmark” status – three are on the eastside and fall in the scope of the EPC work. They include: Kennebec Arsenal, Fort Western, and Cushnoc Archeological Site. A “National Historic Landmark” is a nationally significant historic place designated by the Secretary of the Interior because it possesses exceptional value or quality in illustrating or interpreting the heritage of the United States. Also included in the EPC study area are several buildings listed on the National Register of Historic Places, including the iconic Cony Flatiron building.

On page 4 amend the following paragraphs as shown:

CHALLENGE: Segmented Zoning along the Eastside Riverfront in need of revitalization

With the loss of the paper mill and the eminent move of the hospital to north Augusta, development patterns in the study area will change dramatically, albeit slowly, over the coming decades. The opportunity to shape the type, form, and intensity of redevelopment in this area
starts with the zoning regulations that the City Council adopts. Development will conform to those regulations and create a new development pattern near the heart of the city. It is not an exaggeration to say that redeveloped and revitalized areas will become part of the fabric of the city for the coming century.

There are five different zoning districts along the eastside of the Kennebec River within the study area:

- Industrial (IA);
- Kennebec Business District 2 (KBD2), a mixed use commercial and residential district;
- Medium Density Residential (RB1); and
- Institutional/Business/Professional (BP), an office related district.

The EPC recommends the City of Augusta create one or two zoning districts for the eastside riverfront. City Center and Cony Street may act as a logical geographic and functional break for two different zoning districts, north and south. To achieve this vision, the EPC further recommends that the Planning Board craft new mixed use districts, such as the KBD2 district, for the City Council’s consideration and make corresponding recommendations for amendment to the 2007 Comprehensive Plan.

**On page 22 amend the following paragraphs as shown:**

**RECOMMENDATIONS:**

- Have a study committee review the existing connections between the east side of the river and the west side, in particular the downtown. Emphasis should be placed on enhancing pedestrian connections that are more pleasant and less daunting that the two bridges that primarily serve vehicle traffic.
- Improve crosswalks at all major intersections. Provide pedestrian scale lighting along roadways. Consider benches or seating along pedestrian routes to enable people to rest.

13-054 City Manager
