**14-074  City Manager**
WHEREAS, The City of Augusta in the County of Kennebec and State of Maine has been recognized by representatives of the Maine Emergency Management Agency (MEMA) as having experienced extraordinary costly ice storm impacts to its road infrastructure as the result of the unabated winter storms that occurred in the past and will very likely occur again in the future; and,

WHEREAS, The Federal Emergency Management Agency (FEMA) definition of a severe winter storm means an event that occurs during the winter season and includes one or more of the following conditions: snow, ice, high winds, blizzard conditions and other wintry conditions and that causes substantial physical damages or loss to property where Municipal and State governments demonstrate that the capabilities to effectively respond to the event are or will be exceeded; and,

WHEREAS, The City of Augusta Council disagrees with FEMA’s interpretation of this policy application of Policy 9523.1 to ice storms and advocates for an “ice storm” policy addendum; and,

WHEREAS, The original, understandable, intent of FEMA Policy 9523.1 is that northern States such as Maine which are equipped for and budget for winter snowstorms should have to meet a
very high standard to have a snowstorm qualify as a disaster. However, an ice storm with prolonged power outages in freezing conditions poses a more extreme threat to public safety in a northern than in a southern state where temperatures are likely to quickly moderate. Therefore the application of Policy 9523.1 to ice storms has unintended negative consequences for northern states; and,

WHEREAS, FEMA policy in other types of disasters, such as floods or hurricanes, is that maintenance of all roads during and after the event for the purpose of emergency vehicle access is eligible for disaster assistance. In freezing temperatures, roads must be treated with sand and salt in order to carry out the emergency function of power restoration. Therefore Policy 9523.1 is actually in conflict with other FEMA policies; now,

THEREFORE BE IT RESOLVED, That City of Augusta Council does hereby strongly support the Maine Emergency Management Agency (MEMA) in its advocacy for an amendment to the FEMA storm policy and will exercise its appointed authority to engage other Maine municipalities in a united effort to bring national attention to the extent necessary and put on notice, our Congressional representatives that the ice storm damage experienced in the past in these communities are very real and are worthy of their support and attention.
