WHEREAS, no permanent bituminous mix plants or ready mix concrete plants have yet been installed.

WHEREAS, sunsetting the one existing temporary bituminous mix plant and requiring further planning board review and authorization for it to restart seasonal operation as an accessory use in the spring of 2010 is not found to be an unreasonable financial burden to the owner of the mineral extraction site, since an accessory use is by its nature not the primary function of the site.

NOW THEREFORE BE IT ORDAINED, By the City Council of the City of Augusta hereby amends the Mineral Extraction Ordinance as follows:

*Allowable associated mineral extraction uses.* Associated mineral extraction uses include, but are not limited to, bituminous mix plants, crushing/screening operations, ready mix concrete plants, materials being recycled / reprocessed. Each of these associated uses must be expressly approved by the Planning Board to be considered allowable under a mineral extraction license. Ready mix concrete plants and bituminous mix plants shall be reviewed using the Site Plan Review Criteria Applicable to Conditional Uses, found in Section 6.3.4 of the Land Use Ordinance. Any existing temporary bituminous mix plants or ready mix concrete plants associated with a licensed mineral extraction site as an accessory use at the time of adoption shall be eliminated by May 1, 2010, unless they receive additional approval from the planning board for their operation as per this section.
