Subject: Proposed Addition Student Service Center,
University of Maine at Augusta

Dear Sir:

This is to acknowledge receipt of plans and specifications dated June 17, 1976 for the subject project. The proposal calls for the construction of an addition to the existing Student Service Center building on the University of Maine at Augusta campus. Water supply and sewage disposal will connect to existing facilities.

Review of the subject project has been completed by this office. Based on the written information you submitted, the proposed design appears to meet requirements of the Maine Plumbing Code, Part I; we therefore give our approval to the proposal.

Final approval is subject to permit by the Local Plumbing Inspector before the construction of this system. The inspector is to be notified before covering the work, and the work is to be left uncovered until his inspection. He shall be supplied with copies of approved plans for his reference at inspection. Approval is also subject to any local ordinances.

Yours very truly,

for 
W. Clough Toppan, Sanitary Engineer
Plans and Standards Review
Division of Health Engineering
