On **Sept. 29, 76** (date), a site investigation for this project was completed. I supervised this soil evaluation and certify that the results indicated above best represent the soil conditions found. I recommend the following type and size of private sewage disposal system. I also recommend the proposed private sewage disposal system layout and location shown on page 2.

LOCAL WAIVER FORM

ORIGINAL To be sent to Division of Health Engineering, Augusta, Maine 04333 by the LPI

THE PURPOSE OF THIS AGREEMENT IS TO ASSIST INDIVIDUALS IN REPLACING EXISTING MALFUNCTIONING SEWAGE SYSTEMS OR CORRECTING EXISTING DIRECT OVERBOARD DISCHARGE SYSTEMS

Town AUGUSTA	Street, Road, etc. OAKLAND ROAD	Plumbing Permit No. 13-001M
------------------------	---	---------------------------------------

Owner of property VINCENT CORMIER	Telephone No. 622-5304
Owner's address Street, Box, etc. R.D. 4	
Town AUGUSTA	State MAINE
	Zip code 04330

LOCAL WAIVER
FOR CORRECTING
EXISTING MALFUNCTIONING
OR OVERBOARD
DISCHARGE SYSTEMS

OWNER PROPOSES: to repair, expand, or replace an existing malfunctioning sewage disposal system, or replace an overboard discharge system which has been in existence since _____ and serves a seasonal or year-round single family dwelling on a _____ sq. ft. lot with category **C-6** soils (per table 9-1 Maine State Plumbing Code).

THE OWNER'S PROPOSAL MEETS THE CODE EXCEPT FOR SECTIONS NOTED BELOW

SECTION 4.3 SOILS

MOTTLING: To reduce the 15 inches below the organic layer requirement to _____ inches. (Nothing closer than 10 inches is to be allowed)

IMPERVIOUS LAYER: To reduce the 15 inches below the organic layer requirement to _____ inches. (Nothing closer than 10 inches is to be allowed)

SECTION 4.7 DISTANCES - DISPOSAL AREA FROM -

SURFACE WATER: Normal high water mark of any tidal water, swamp, bog, marsh, lake, pond, river, stream, or similar watercourse. To reduce the 100 foot requirements to _____ feet. (Nothing closer than 60 feet is to be allowed)

OWNER'S WELL: To reduce the 100 foot requirement to **80 ft** feet. (Nothing closer than 75 feet is to be allowed, and no waiver is allowed on neighbor's well)

BUILDINGS: To reduce the 20 foot requirement to _____ feet. (Nothing closer than 15 feet in the case of full basement and 10 feet in the case of slab construction is to be allowed)

PROPERTY LINE: To reduce the 10 foot requirement to _____ feet. (Nothing closer than 5 feet is to be allowed) This is applicable only if soil conditions are in category "B".

SECTION 4.7 DISTANCES - TREATMENT TANK FROM -

OWNER'S WELL: To reduce the 100 foot requirement to **65 ft** feet. (Nothing closer than 50 feet is to be allowed) (No waiver allowed on distances to a neighbor's well)

SECTION 9.1

HOLDING TANK FOR SEASONAL DWELLINGS Requesting permission to install a 1500 gallon holding tank. The tank is to be constructed in a manner specified in Section 7.6 with the associated alarms accompanied by flow reducing valves for shower and sinks, and low volume toilets.

STATEMENTS

STATEMENT OF OWNER

I, VINCENT CORMIER, the undersigned, am the owner of the property indicated in the application. I understand that the installation explained above and illustrated on the HHE-200 Form accompanying this request is not in total compliance with the Maine State Plumbing Code. This system is to replace an existing direct discharge or malfunctioning disposal system. Should the proposed replacement system malfunction or create any nuisance or environmental problems or affect my water supply, I release all concerned with this waiver provided they have performed their duties in a reasonable and proper manner. Further, should a malfunction occur, I will take every step possible to correct it.

Vincent Cormier

Date

STATEMENT OF SITE EVALUATOR

I, J. U. WIESFENDANGER, the undersigned certify that the information I have submitted on the HHE-200 Form accurately represents the conditions that exist on the applicant's property. A waiver to the Maine State Plumbing Code is necessary since no system can be installed which will completely satisfy all Code provisions

Municipality's Findings

The proposed system (does) (does not) conflict with any municipal or shoreland zoning ordinances, and has been shown to the Code enforcement Officer.

CONCLUSIONS:

I, Richard P. Baber, the undersigned, have visited the above property and find that it is not possible to conform to certain provisions of the Plumbing Code. The waiver request submitted by the applicant is the best alternative for a replacement subsurface sewage disposal system on this property.

Based upon my conclusions, I permit the installation of the sewage disposal system as proposed and shown on the HHE-200 Form.

Richard P. Baber

WAIVER CONDITIONS

- A. **APPLICABILITY.** These variances relate to existing single family dwellings only. Any variances or waiver requests not covered in this agreement involving other types of structures or other conditions require submission to the Division for review. All local ordinances must be complied with.
- B. **SITE EVALUATOR'S RESPONSIBILITIES.** The property shall be visited by a qualified site investigator who shall investigate the site and complete the HHE-200 Form recommending a sewage disposal system which can best conform with the requirements of the Code. The investigator shall inform his client that a waiver is required and indicate so on the HHE-200 FORM. He should then refer his client to the local Plumbing Inspector.
- C. **LOCAL PLUMBING INSPECTOR'S RESPONSIBILITIES.** The Local Plumbing Inspector shall review the site evaluation FORM HHE-200 and complete the waiver request form attached. Once it is determined that the waiver request is the most practical approach to correcting the applicant's problem, the Local Plumbing Inspector shall see that the statement portions of the waiver form are completed by the homeowner and the site evaluator before giving final approval.
- D. **RECORDS.** A copy of the waiver request forms and the associated HHE-200 FORMS shall be provided to the homeowner, the site evaluator, for the municipal files, and other copies determined to be necessary, with the original copy forwarded to the Division with a copy of the plumbing permit.
- E. **LOG OF WAIVERS ISSUED.** The plumbing inspector shall maintain a chronological log of all waivers granted. The total of the waivers granted for each calendar year shall be noted in the annual report which is submitted to the town and to the Division.
- F. **SECTION OF THE CODE WHICH CAN BE WAIVED.** The authority of issuing waivers at the municipal level is restricted to those sections specifically identified on the check-off portion of the waiver request form.
- G. **RESCINDING OF WAIVER RIGHTS.** If the Division, in its review of these waivers, finds that a local plumbing inspector or site evaluator exceeds the limits and limitations spelled out in this agreement, the Division will remove this privilege from that individual.
- H. **HOLDING TANKS.** The Local plumbing inspector is authorized to permit the use of holding tanks in replacement situations (not to include privies) where this is the most practical alternative to serve an EXISTING SEASONAL, SINGLE FAMILY DWELLING. A minimum of 1500 gallon holding tank, along with associated alarms, may be permitted by the local plumbing inspector.
