Other Items:

For clarity, there is a second public hearing this Thursday evening for the NRF TIF. We're doing this so that there is no question from the State agency (DECD) that approves municipal TIF's that we dotted the I's and crossed the T's.

My compliments to DPW Foreman Mike Morrison for the article in this weekend's KJ regarding his innovative paving device and the resultant cost efficiencies for the City. This is just one more example of our workforce ethic and creativity.

For once, I was out of town for a weekend and a significant weather problem did not befall our community. Instead it followed me as we were staying at my brother's in the greater Worcester area and found ourselves in the midst of a tornado. Fortunately the damage was minimal but the irony was not lost on me.

This afternoon, UMA announced its new interim president, Glenn Cummings. I've had some interaction with Glenn during his years in the Legislature and I look forward to working with him in his new capacity. Allyson Handley set a very high bar as relates to City/University relations and maintaining that will be very important to us all.
