JARED J. MILLS
Deputy Chief

May 18, 2015

James E. Coffin, P.E.
Vice President
E.S Coffin Engineering and Surveying
P.O. Box 4687
Augusta, Maine 04330

Mr. Coffin,

I have reviewed the proposal to erect a new hanger at the Augusta Airport. The hanger will be erected on land identified as lot #5 on tax map #9 in the City of Augusta tax maps located off the Old Winthrop Road. I have no concerns or issues with the proposal.

Sincerely,

Roger,
The building will not be sprinkled, but you will have access to the south and west sides from Wintthrop Street. The north and east side access will be through the gate adjacent to Maine Instrument Flight's building, which is the building nearest the airport terminal.
Thanks,
Jim

Will this have a sprinkler system? Access looks good I assume through the gate only right?
